

STRONG IN SERVICE. RELIABLE AS EVER.

BOOK YOUR FREE MACHINE INSPECTION TODAY.*

New ownership. Proven quality. Even better service.

Schwarze-Robitec has stood for high-precision tube bending machines and outstanding customer support for decades. Since May 2025, Schwarze-Robitec has been part of the Daum Group – marking the beginning of a new chapter with fresh energy and a strong partner by our side.

Take advantage of our now even more attractive service offering!

* Offer valid until 31 December 2025. Only applicable for machine locations within the EU. For locations outside the EU, partial travel costs may apply.

Our service offer for you:

A free inspection of your machine – for greater **safety, efficiency, and** long-term **competitiveness.**

Our experienced service technicians will visit your site, inspect your machine thoroughly and provide tailored advice:

- ⊕ Assessment of the general machine condition
- ⊕ Inspection of the control unit and safety-relevant systems
- ⊕ Visual check of tooling for wear or optimization potential
- ⊕ Concrete recommendations for repair or modernization
- ⊕ Detailed inspection report included

Schwarze-Robitec GmbH & Co. KG · Olpener Str. 460 · 51109 Cologne · Germany

MACHINES THAT PERFORM FOR DECADES – SERVICE THAT SECURES THE FUTURE.

When a machine inspection makes perfect sense:

Yes, your tube bending machine is running – but is it truly prepared for the years ahead?

- ⊕ Maybe the control system is showing signs of aging?
- ⊕ Maybe spare parts are getting harder to source?
- ⊕ Or maybe you simply want to ensure your machine continues to operate safely, efficiently, and economically?

Then now is the right time for a professional inspection – before minor issues turn into major problems.

Your advantage:

Zero risk. Full transparency.

- ⊕ The inspection is completely free of charge.
- ⊕ You'll gain new insights into optimization potential and long-term efficiency.
