

**THE ART OF
ENGINEERING
MADE IN GERMANY**

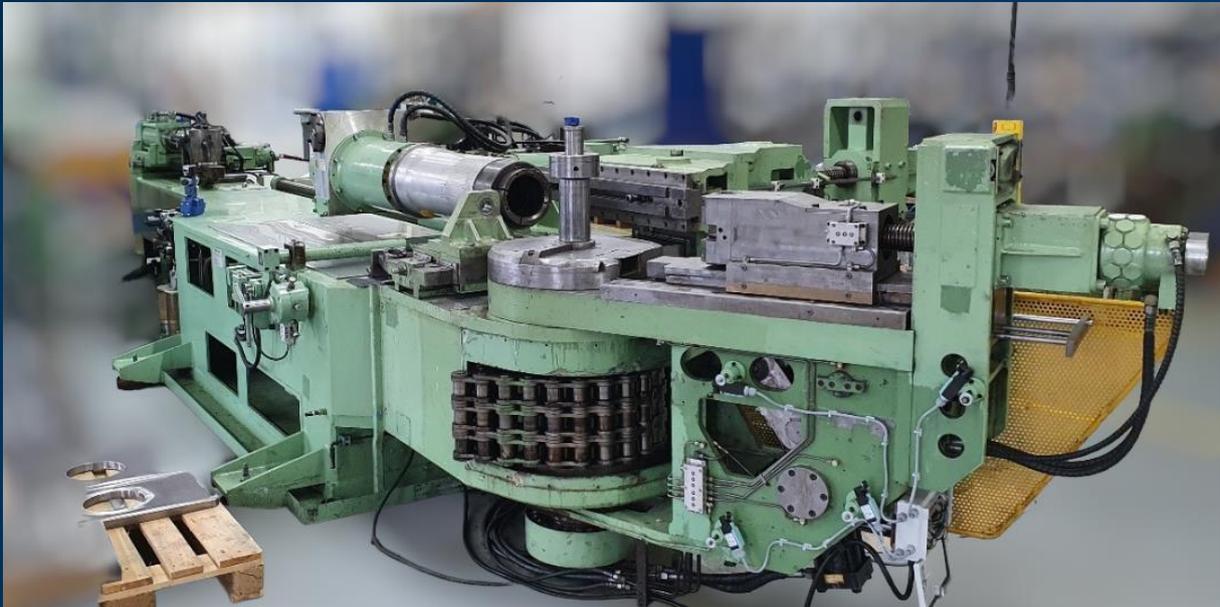

Storage and second hand machines directly from OEM

**CNC 150 (fully hydraulic)
Shop floor checked incl. new control**

Shop floor checked Bending Machine Schwarze- Robitec CNC 150

Technical Data

Performance:

Max. bending capacity of the machine	Tube-Diameter- \varnothing x Wall thickness
Standard steel (450 N/mm ²)	150 x 4,0 mm
Stainless steel (750 N/mm ²)	150 x 2,3 mm
Min. Tube- outer- \varnothing	65 mm
Max. modulus of section	ca. 65 cm³
Max. Bending Radius single stack	350 mm
Min. Bending Radius	100 mm
Max. Transport stroke Standard Machine	3.000 mm

Comment

New control, new operator panel, new electrical cabinet and safety control, partly new wiring and checked hydraulic as well as mechanical parts

Budget-Price, EXW: **on request**
(incl. Standard-Options, excl. Bending tools and service)
