## Used-Machine (2022-0020): Tube Bending Machine Schwarze- Robitec CNC 90 EcoLine

### Technical Data

#### Performance:

Max. bending capacity of the machine	Tube-Diameter- $\varnothing$ x Wall thickness
Standard steel (450 N/mm <sup>2</sup> )	<b>88,9 x 3,65 mm</b>
Stainless steel (750 N/mm <sup>2</sup> )	<b>88,9 x 2,0 mm</b>
Min. Tube- outer- $\varnothing$	<b>16 mm</b>
Max. Bending Radius single stack	290 mm
Min. Bending Radius	30 mm
Max. Transport stroke Standard Machine	<b>3.000 mm</b>

#### Comment

The CNC controlled tube bending machine of the EcoLine series, with appropriate tools, enable the fully automatic bending of all types of tubes and profile material, with bending mandrel as well as without bending mandrel. The EcoLine 90 is suitable for the production of individual parts as well as for series production
